

334 CURRICULUM EVALUATION

In order to continue to offer district students the highest quality education opportunities and to assure the community that the school district is being operated efficiently and effectively, the administration and staff will implement a comprehensive curriculum renewal process according to the long-range evaluation plan approved by the Board.

The overall goals of this process are to:

1. Maintain state-of-the-art knowledge of best practices found in program literature and research and determine relevance for the district;
2. Update or revise curriculum documents that already exist;
3. Provide opportunities for staff to collaboratively work on common goals and learning targets for students; and
4. Provide decision-making information for resource acquisition.
