August 1, 2011

Greetings!

Each year, public school districts in Wisconsin are required to prepare a school performance report outlining the previous year's success in a variety of areas. Specifically, districts are to report data in comparison with other districts in their athletic conference in the areas of *assessment, dropout rate, attendance, retention, graduation rate, habitual truancy, extra/co-curricular activities, community activities, Advanced Placement (AP) participation, post-graduation plans, suspensions, expulsions, staffing, financial data, etc.*

School year information for prior school years may be found by going directly to the Wisconsin Information Network for Successful Schools (WINSS) DPI website located at:

<http://dpi.wi.gov/sig/index.html>

The data can be sorted in many ways, and you can also compare other school districts' data to ours. For instance, the Wisconsin Rapids Public School District data may be compared to districts included in our Wisconsin Valley Conference: DC Everest, Marshfield, Rhinelander, Stevens Point, and Wausau.

Information about the 2010-11 school year continues to be updated to the WINNS website periodically by the Department of Public Instruction, so feel free to check back for updates if the data hasn't been posted at the time you visited the website.

If you do not have home Web access, visit McMillan Public Library located at 490 East Grand Avenue in Wisconsin Rapids, or contact Maurine Hodgson at the District administrative office at 715-424-6701 to request specific information or data you are interested in. For tips on how to use the Data Analysis Section of WINSS, go to: [http://www.dpi.state.wi.us/sig/usetips\\_data.html](http://www.dpi.state.wi.us/sig/usetips_data.html).

If you have any questions or comments regarding this report, please feel free to contact my office at 715-424-6701, or e-mail me at [colleen.dickmann@wrps.org](mailto:colleen.dickmann@wrps.org).

Sincerely,

A handwritten signature in black ink that reads 'Colleen Dickmann'.
