  - This tool now has an option to appro

3. Then click on the “Add Announcement” link.

4. Adding an announcement is similar to adding a event in the Calendar Admin tool.

Add Announcement

a. First select the appropriate Category. NOTE: There is both a Staff and a Student option for each school, be sure you select the one that is most appropriate. The Staff category is only visible to the staff members while the Student category is visible to everyone. They must be entered seperately.

b. Next, add the Announcement Title. The Announcement Title should be (Name of School) Daily Announcements (M/D/YYYY) for both Staff and Student category. An example would be: Lincoln High School Daily Announcements 6/18/2008.

c. Next, select the Start Date (which will always be the date you are adding the announcement), the Start Time, the End Date and End Time. An example would be: Start Date: 6/18/2008, Start Time: 12:00 AM through End Date: 6/19/2008, End Time: 12:00 AM. This announcement would be out all day on the 18th.
d. Next type in your announcement(s) in the Text/Graphic Editor.
e. If you want to upload a graphic in your announcement(s), click the Browse button to search for your desired picture on your computer.
f. If you would like a short description of your graphic you just uploaded, type it in the Graphic's Alt Text text box. This description will appear when the viewer's mouse moves over the picture.
g. If you want the picture to link to another webpage, insert that webpage's URL in the URL text box. If you want the link to open in a new browser window, select the radio button that says “Open in New Browser Window”, otherwise, select “Open in existing Browser Window”
h. When finished click “Add”.

5. Once you click “Add” you will see your announcement(s) in a table, you are now finished adding an announcement(s).
Note: When adding a new announcement for each day, make sure the previous announcement is deleted!
