

## **LHS Building Construction Application Process for 2016-17**

The Building Construction class at Lincoln High School has a history of building one fully functional residential home per year for an applicant. The goal of the class is to provide students the opportunity to get real life experience related to residential building. It is now time for the selection process to begin for the 2016-2017 school year.

Applications are being accepted for a home to be built which would reside within the Wisconsin Rapids School District. The process includes submitting a letter of interest to Daniel Weigand, Director of Business Services, which can be mailed or dropped off at 510 Peach Street, Wisconsin Rapids, WI 54494.

Those who submit a letter of interest will receive follow-up correspondence describing the selection process as well as any required information. All required information to be submitted is due by March 28, 2016. A committee will then choose a home that best fits the criteria to make the Building Construction class a positive experience for the students. If you have any questions, please contact Terry Bores (LHS Building Construction Instructor) via email at [terry.bores@wrps.net](mailto:terry.bores@wrps.net), or Daniel Weigand at [daniel.weigand@wrps.net](mailto:daniel.weigand@wrps.net).
