

Middle School Students Perform Well in Math Contest

All 6th and 7th graders at the Wisconsin Rapids Area Middle School (WRAMS) recently participated in the Wisconsin Math League Contest. This annual contest consists of 35 - 40 problems, and students are given 30 minutes to solve them. Each year, the top 30 schools in the state are publically recognized for their grade-level scores.

We are proud to announce that *both grades* at WRAMS made the list! In fact, our 6th graders placed 11th in the state - 3rd in our region; and our 7th graders placed 9th in the state! Additionally, four individual students were recognized for their outstanding performance. The dedicated math teachers and hard-working students at WRAMS all deserve a big pat on the back for this tremendous accomplishment! *Congratulations!*
