*The Wisconsin Rapids Public Schools serve the
City of Wisconsin Rapids;
Villages of Biron, Rudolph, and Vesper;
Wood County Townships of Arpin, Grand Rapids,
Hansen, Rudolph, Saratoga, Seneca, Sigel, Sherry;
and Portage County Townships of
Carson, Grant, and Plover.*

MISSION STATEMENT

*Working together with home and community, we are
dedicated to providing the best education for every student,
enabling each to be a thoughtful, responsible contributor
to a changing world.*

Wisconsin Rapids Public Schools
510 Peach Street
Wisconsin Rapids, WI 54494

Greetings!

I am pleased to provide this information as it relates to various aspects of the Wisconsin Rapids Public Schools.

Whether you are an interested parent, student, citizen, employee, or other stakeholder, I would like to take this opportunity to thank you for reviewing this information to familiarize yourself more with our school district.

WRPS has a strong history of offering a wide variety of services to our students in order to meet their constantly changing needs. We continually strive to do better in serving them academically, physically, and socially. By bringing content, technology, and pedagogy together, we are building 21st Century learners who can compete globally. We strive to improve individual student growth by measuring student achievement and constantly evaluating our curriculum. Our district is committed to maximizing learner opportunities through the exploration of alternative and more efficient delivery of student programming.

Our state of the art facilities continue to be maintained in a manner which continually supports evolving student programs and activities. Should you ever wish to visit one of our schools and learn more about WRPS offerings, feel free to contact a building administrator to arrange for a visit.

Any time you have questions, suggestions, or concerns about our schools, please contact the appropriate individual or department listed in this brochure, or call 715-424-6700.

A handwritten signature in black ink that reads "Dr. Colleen Dickmann". The signature is written in a cursive, flowing style.

Dr. Colleen Dickmann
Superintendent

DID YOU KNOW...

The **Wisconsin Rapids Public Schools (WRPS)** encompasses the city of Wisconsin Rapids; the villages of Biron, Rudolph, Vesper; and all or portions of 11 surrounding townships. Serving as a unified school district, WRPS has a student population of approximately 5,300. WRPS offers half-day 4K programming and has six K-5 elementary schools, two elementary charter schools, one middle school (grades 6-7), one junior high school (grades 8-9), one senior high school (grades 10-12), one alternative high school (grades 9-12), and operates a virtual school program with an enrollment of over 200 students. The school system has earned a solid reputation as a progressive, professional organization, which has high student achievement and a low drop-out rate. Programs have been changed and continually evolve in order to best meet the needs of our students. Staff members are continuously recognized by both state and national organizations and agencies for their professionalism and expertise.

The Wisconsin Rapids **4K Community Collaborative Program** includes sections located in both public schools and community sites. All 4K teachers have a minimum of a bachelor's degree in education and are involved with continuing professional development related to the needs of the program. Ratios are kept to 17:2 with the second adult being a teacher's educational assistant.

The 4K program follows the Wisconsin Model Early Learning Standards. Classroom environments meet the standards of Early Childhood Environment Rating Scale (ECERS). Appropriate learning materials are available to all students regardless of location. Materials directly correlate with performance standard goals.

The 4K program is play-based. Within these play experiences; children are exposed to a literacy/print rich environment. They are provided opportunities for dialogue, learning through social interaction, dramatic play, listening to stories, and writing. A play-based program allows children to develop at individual rates. Teachers are able to differentiate instruction to meet the various needs of their learners. Research shows that play in early childhood is the best foundation for success in school. Play develops many skills that are necessary for children to learn to read and write for success in math and science. Play also develops behaviors that help children learn all school subjects.

Our **K-5 elementary schools** have a curriculum that emphasizes literacy skills. Teachers work to provide a strong basis in reading and writing to insure success at the secondary level and beyond. Critical thinking, creativity, communication skills, and technology integration are woven throughout the language arts, math, science and social studies areas. Science, Technology, Engineering and Math (STEM) projects are infused into the elementary curriculum to provide students with an early experience in engineering projects and exposure to STEM careers. In addition, students receive art, music and physical education classes weekly.

At the primary level, the District curriculum is also developmentally appropriate. This means that teachers meet each student where they are, and take them to their optimal learning level. Lessons address varied interests, needs and abilities. The development of each child's confidence as a learner is also an important part of the teaching and learning that occurs at the elementary level.

The **Wisconsin Rapids Area Middle School** serves the District's sixth and seventh grade students. Collaborative teaching teams work with groups of approximately 125 students to meet the unique academic, social, physical and emotional needs of young adolescents. Students have the opportunity to participate in a variety of academic and co-curricular activities. The pre-teen years are filled with self-discovery and personal growth; therefore, our staff facilitates many different clubs, sports, leadership and volunteer experiences for students in addition to delivering consistent, content-based, academic standards.

East Junior High School provides an education for all 8th and 9th graders in the school district. Teachers, administrators, counselors and staff are dedicated to creating a rigorous academic environment, balanced with outstanding social, emotional, and wellness opportunities. Students are challenged to maximize their potential within a supportive and nurturing environment. A variety of extra-curricular activities are offered for students to explore and grow in many areas.

Lincoln High School (LHS) is a grade 10-12 comprehensive high school where all students are being prepared for college readiness and career success. LHS is proud to offer a strong curriculum, technology infused instruction, and approximately 170 courses to meet the diverse learning and career needs of all students. The curriculum includes a minimum of eleven advanced placement (AP) offerings, and a rich assortment of challenging courses in the career and technical education areas including Project Lead The Way engineering curriculum. The LHS world language department offers four languages (French, German, Japanese, and Spanish).

The fine arts are also a strong part of the curriculum at LHS. Students can choose from a variety of courses in the visual arts, music, and theatre/drama areas. Students from these three areas often compete on state and national levels to gain recognition for their efforts, accomplishments and areas of expertise. Also, LHS has a strong tradition of high-quality extra-curricular programs. Students have an opportunity to become involved in 21 interscholastic sports as well as more than 50 activities and clubs. LHS students have earned a high degree of respect for honors earned in regional, state and national competition. The LHS staff works hard to ensure that all graduating students possess the social and emotional skills necessary for a successful future. They developed the “PRIDE” initiative (Personal Responsibility In Developing Excellence) to encourage and develop character excellence in our students. Students are expected to be respectful, responsible, and committed. Behavior support is available for those students who struggle with school expectations, and students who are making wise behavioral choices are recognized on a regular basis.

The District also serves students in grades 9-12 who require an alternative educational setting as opposed to a traditional school setting. **River Cities High School** helps to meet unique needs by providing an environment that promotes social, emotional, academic, and vocational growth and development of students most at-risk. Instead of lowering expectations, the alternative high school attempts to raise hope and redefine success among students by providing non-traditional approaches for students to meet their high school graduation requirements.

Lastly, WRPS offers a **virtual program** for families interested in on-line learning. This virtual school component offers families the option to learn in a self-paced environment and customize education to support student goals. Our virtual school students are welcome to participate in any combination of classes, field studies, and school activities including extra-curricular and sports. This option is a great solution for families who want to be totally involved in all aspects of their child(ren)’s education.

Transportation (Public and Parochial) of students is contracted with Lamers Bus Lines and Safe-Way Bus Transit. Approximately 3,033 young people are transported to and from school, traveling over 1.3 million miles each year at a cost of \$3,443,400.

Annual Cost Per Student: \$1,135 Per Vehicle: \$62,607

SCHOOL PERFORMANCE REPORT

Each year, public school districts in Wisconsin are required to prepare a school performance report outlining the previous year's success in a variety of areas. Specifically, districts are to report data in comparison with other districts in their athletic conference in the areas of *assessment, dropout rate, attendance, retention, graduation rate, habitual truancy, extra/co-curricular activities, community activities, Advanced Placement (AP) participation, post-graduation plans, suspensions, expulsions, staffing, financial data, etc.*

School year information may be found by going directly to the Wisconsin Information Network for Successful Schools (WINSS) DPI website located at these links:
