Mid-State does not discriminate on the basis of race, color, national origin, sex, disability, or age in its program, activity, or employment. The following person has been designated to handle inquiries regarding the nondiscrimination policies: Vice President - Human Resources; 500 32nd Street North, Wisconsin Rapids, WI 54494; 715.422.5325. 3/2019

Come on a Safari with Us!

We are on the hunt for the discovery of a lifetime—your career! Students entering 6th, 7th, and 8th grade next fall are invited to join Mid-State Technical College for a day filled with hands-on exploration.

Cost and Registration

The cost is \$40 and includes all exploration workshops and activities, snacks, lunch, camp gift, and bus transportation.

To register, participants must choose five exploration workshops. Sessions are assigned on a first-come, first-served basis, so don't delay—register today! Based on demand, participants may be placed in alternate sessions. The \$40 fee must accompany your registration.

for more details, visit mstc.edu/camp

exploration workshops

Accounting

Who helps turn a great business idea into a successful business (ad)venture? Great accountants! Be an accountant for a small business and compete with others to see who can make the most money. We will also talk about the many different jobs accountants have and why they are important.

Business Management

Business management is all about working with others and using great communication to solve problems. No safari is safe or successful without a great team.

Campus Scavenger Hunt

Experience the life of a Mid-State student in their natural habitat with an exciting safari-themed scavenger hunt! Work with your team, and compete to find all of the items first.

Construction Trades

Just like any safari depends on a skilled and reliable guide, all people depend on construction workers to help build the places we live, go to school, and work in every day. It's time to build your own hands-on skills!

Cosmetology

Let our Cosmetology students get you safari-ready with a funky hairstyle, crazy nails, and cool makeup.

Criminal Justice-Studies

It's a jungle out there, and we could all use clues when it comes to finding our way. Try your hand at navigating the criminal justice system in the Mid-State jail room lab.

Diesel & Heavy Equipment Technician

No safari is complete without a rugged and reliable vehicle. Get behind the scenes and under the hood of a modern diesel engine. Learn about how these specialized engines work, and discover the great careers possible in the diesel and heavy equipment world for those who know how to service them.

EMT-Paramedic

Join us to see what kind of equipment is used by EMT professionals in this hands-on session. You'll learn life-saving tips to ensure a safe adventure.

Hospitality Management

Muamba Nsusu! What is that? You'll find out as you explore this and other African cuisine items including South African yellow rice with raisins, Ngege (grilled tilapia), and Mescouta (date cookies). Learn how native African meals focus on stews, starches, and vegetables to create a meal fit for a Lion King!

IT Security Specialist - Escape Room

What could go wrong on safari? Not as much as goes wrong every day in the world of IT security. Get an up-close-and-personal experience in our IT security escape room!

IT Network Specialist - Escape Room

It's a jungle in here! Use your network skills to troubleshoot, analyze, and repair to escape the IT network challenge!

Nursing

Take a tour of the "world of nursing" with several hands-on opportunities to work with the various tools and equipment nurses use on a daily basis. You will also have a chance to see, hear, and touch our high-fidelity nursing simulators in action—you won't want to miss it!

The MIKE (advanced manufacturing)

What really goes on in modern manufacturing? "Embark" on our mobile lab—The MIKE—to find out. You'll use a computer to design a product, create code to operate an automated machine, vacuum form your design into a mold, and reverse engineer a product using a 3D laser scanner.

Urban Forestry Technician

Trees are far more than a giraffe's salad. Suit up to swing from tree to tree in the Urban Forestry lab and experience one of the best ways to scope out the surrounding terrain.

Welding

It's time to suit up and make some sparks! Learn several welding processes that prepare you for a wide variety of hot jobs. Get hands-on experience and become familiar with various types of metal.
