

## Service Project Helps Local Humane Society

Kennedy is a 5<sup>th</sup> grader in Mrs. Pep's class at Howe Elementary, and she loves animals! Kennedy and her classmates organized a drive for the local South Wood County Humane Society and collected many toys and pet food for the cats and dogs at the shelter. After writing up a plan and getting Principal Miller's approval, the students organized and implemented the service project plan. Jobs were assigned, and students participated in many ways such as by writing and reading announcements, going into classrooms to deliver collection boxes and rally participation and excitement, some students made posters, while others collected and counted the items once the drive concluded. Howe students and families were very generous and made a positive impact on some local furry friends!
