Register Soon for STEM Scouts Program (Grades 3-12)

The STEM Scouts program will be taking place throughout the Wisconsin Rapids School District this fall!

STEM Scouts is a coed pilot program that is designed to focus on the fun and exciting opportunities for youth in science, technology, engineering, and mathematics (STEM). Through weekly meetings and four to six week modules that cover a variety of disciplines, STEM Scouts is designed to be fast-paced, thought provoking, and fun. The program will show youth how to apply STEM in their everyday lives and encourage them to develop those experiences into a future career.

STEM Scouts is a new program from the Boy Scouts of America. This program is open boys and girls in three divisions: elementary school (grades 3-5), middle school (grades 6-8), and high school (grades 9-12).

As career prospects within these fields continue to grow, STEM Scout modules will aim to demonstrate to youth the exciting opportunities that a career in STEM can provide. These activities are tailored to a variety of disciplines and will have a lesser focus on traditional outdoor experiences.

To register, please attend the following sign-up nights or register online at www.stemscouts.org/weston.

- ◆ **Mead Elementary** (241 17th Avenue South) ⇨ **September 21st** at 6:00 p.m. in the Library
- ◆ **Woodside Elementary** (611 Two Mile Avenue) ⇨ **October 12th** at 6:00 p.m. in the Cafeteria
