

## Students Welcome STEM Shuttle

Our 5<sup>th</sup> graders at Grove had a special visit in early October from the [STEM Shuttle](#), which is operated through the Dream Flight USA Foundation. The students had the chance to take part in different work stations aboard the shuttle to learn about gravitational pull, the ozone layer, constellations, and working in space. One of the shuttle crew members is former WRPS teacher, Sue Bushman. Special thanks to Delta Dental, who helped sponsor the visit. It was a great, hands-on learning experience the students will long remember!
