

Reality Check Prepares Students for Future

It takes the entire community to educate our next generation of leaders! Wisconsin Rapids proved that just recently when all Lincoln senior class members participated in a three-part "Reality Check" consisting of involvement in: community round table discussions with law enforcement and young business professionals; interacting with business professionals to complete a financial literacy simulation exercise; and engaging with keynote speaker Kyle Willkom while learning to become financially responsible. The discussions with law enforcement agencies included education about current drug trends and root causes of addiction – students were given the opportunity to share their ideas about how to address substance abuse issues in our area.

A special thank you goes out to all of our volunteers – we appreciate your time and dedication in working with our students!
